## Report for the Year 1897-8.

*Read at the Council Meeting held in the Audit Room of the  
Chetham Hospital, Manchester, October 17th, 1898.*

---

SINCE the last Annual Meeting, held on the 19th October, 1897, two volumes have been issued to the Members. These are volume XXXVI., being the fourth volume of the Royalist Composition Papers for Lancashire; and volume XXXVII., an Index to the Wills now preserved at the Probate Registry at Chester, 1761 to 1780, letters A to M.

The first of these, the Royalist Composition Papers, is in continuation of volume XXIX., and has been edited, as was that volume, by the Rev. J. H. Stanning. Their value and importance as bearing upon the History of Lancashire has frequently been pointed out in the Annual Reports, and it only remains to be said that the matter contained in this volume is fully equal to any of those that have preceded it.

The second volume, the Index to the Wills at Chester, was put in hand rather late in the year, to take the place of another volume which the Council had hoped to issue, but which was delayed by unforeseen causes. It was edited by the Honorary Secretary.

During the past year the Council has been fortunate enough to secure the services of a gentleman thoroughly competent to copy and arrange in alphabetical order the various Indexes to the

Wills at Chester to the year 1800. These are now ready for the press down to 1780, and the succeeding twenty years have been copied and will very shortly be arranged in proper order, so that, whenever an opportunity occurs, they may be put into type.

For the current year a volume of "Feet of Fines," or Final Concord relating to Lancashire, from the earliest date to the end of the reign of Edward I., is being edited by Mr. Farrer, and about half is already in type. The matter contained in this volume should prove of the very greatest value to all interested in the History of Lancashire. In addition to the "Fines" themselves, the volume will be enriched by a number of very valuable notes, which no one is better able to furnish than Mr. Farrer. In printing these notes the Council has departed from a rule which has been observed hitherto of printing documents, as far as possible, without annotation; but it was felt that the notes which Mr. Farrer was able to supply were of such an exceptional character that the Council considered they were fully warranted in making this departure from their usual rule.

Colonel Fishwick is also editing a third volume of the Pleadings and Depositions in the Duchy Court of Lancaster for the reign of Edward VI. to Queen Mary. A portion of this is printed off, and the whole is promised for an early date.

The Council have several interesting and important documents in view for publication in the near future. One of these is the recently discovered volume of Quarter Sessions Records for the town of Manchester, a manuscript which has been secured by the Manchester Free Library. The Corporation has undertaken the work of having a fair copy made from the original, and the Council is glad to be able to announce that Mr. C. W. Sutton has kindly undertaken the work of editing this valuable local record.

Major Parker is engaged on the Calendar of the Assize Rolls for Lancashire to the reign of Edward I., and the Council hopes shortly to be able to announce it as a volume for early publication.

The second portion of the Index to the Wills at Chester to 1780 is also in the press.

Whilst presenting this record of active work amongst the documents relating to the History of the two Counties, the Council very much deplore the want of general interest that is shown in the work which they have undertaken, and desire to urge once more most strongly on each individual member of the Society the importance of obtaining fresh subscribers to assist them in prosecuting the excellent work which they have in hand.

The following is a complete list of the Society's publications already printed up to the present time :—
